

Break-out furniture

Welcome to Sedus!

Sedus Stoll AG (founded in 1871) is one of the leading manufacturers of office furniture, office seating, conference and break-out furniture.

The company's headquarters and main production facilities are located in Waldshut/Dogern, in South Germany's Black Forest. The Sedus brand is represented in more than 40 countries around the world.

The company's strength lies in the balanced combination of innovative product design, high quality, highly durable designs and materials, a sense of environmental responsibility, and the ergonomic features of its products.

Perfect, customised solutions result from our commitment to realising individual requirements. Sedus offers an extremely diverse range of products with millions of technical and visual variations. Outstanding system furniture and tailor-made solutions go hand in hand at Sedus. A large selection of finishes and support materials can be used for customised products with individually integrated media technology.

Proof of the high quality production standards is provided not only by numerous top awards, but also certification according to ISO 14001:2004 and by being the first company in the entire German furniture industry to participate in the EU standard eco-audit.

A passion for work. A heart for the environment.

Ecology and environmental protection are elements of the corporate philosophy that Sedus pursues each and every day. It applies to our work processes, the demands we make of suppliers and how we handle materials. We believe that aside from a work method which preserves resources, recycling-orientated product design, using ecologically tested materials and energy-saving production, what really counts is the quality of the product. After all, there is nothing better for the environment than a durable product

meet chair & table
