**Sedus no limits**

Limitless communication, multifunctional configuration and optimal utilisation of available space are provided by the extensive range of Sedus no limits models – as a symbiosis of aesthetics and functionality. For workshops, training sessions, meetings, presentations, conferences, group work or discussion circles. The high degree of mobility creates the perfect working atmosphere in seconds.

The centrepiece of the range is the personal desk. It is mobile, optionally height-adjustable, tiltable and linkable. It can also be parked to save space, while the large table tops guarantee an optimal workplace for either standing or sitting.

**no limits meeting tables** come with table tops in a variety of shapes so that individual “table landscapes” can be created. Rectangular tables can also be linked with personal desks. They are available on castors and with an ingenious folding mechanism which is extremely quick and easy to operate.
